PROFESSIONAL SUMMARY

Product Management professional with 2+ years of experience B2B SaaS, NaaS and enterprise technology. Experienced in analyzing markets, customers, revenue, and technology trends to develop insights and drive innovation roadmaps. Actively seeking full-time Product Management opportunities.

EDUCATION

Dartmouth College, Thayer School of Engineering

Master of Engineering Management

Hanover, NH

Sep 2025 - Nov 2026

- Teaching Assistant: Technology Assessment, Introduction to System Identification
- Areas of Focus: Product Management, Strategy, Marketing, Pricing, AI for Managers, Negotiations

University of Mumbai, Ramrao Adik Institute of Technology

Bachelor of Engineering in Computer Engineering | GPA: 3.9

Mumbai, India

Aug 2019 - May 2023

- Leadership & Societies: Editor-in-Chief for The Wall (Lit. Committee), Writer for Computer Society of India (CSI)

WORK EXPERIENCE

Cloudflare Inc.

Product Manager Intern

Austin, United States

Jun 2026 - Sep 2026

- Developed a repeatable test workflow for Cloudflare's Data Loss Prevention model using synthetic test data, establishing performance benchmarks and **identifying detection gaps across sensitive-data scenarios**, resulting in a low 73% recall.
- Cross-referenced model failures with customer escalations and feedback data to identify recurring detection gaps; translated findings into **4 PRDs and a performance visibility dashboard** that informed engineering prioritization and remediation.

Tata Communications Ltd.

Analyst - Product Management

Mumbai, India

Jul 2023 - Aug 2025

- Led development of an **AI predictive-analytics tool** for bandwidth forecasting - authored **MRDs, ran customer discovery**, validated with **NPI and cross-functional teams**, and proposed a patent, achieving 95% forecast accuracy.
- Delivered **product enhancements** such as automating pricing and quotations, API integration and AI funnel/WIP management system that streamlined customer onboarding, reducing average lead-to-order timeline by 70% for enterprises
- Launched **VOC initiatives** with the customer experience team through **customer surveys, feedback loops, and demo campaigns** to identify customer needs and boost product awareness which led to an 80% increase in product demo requests
- Presented **quarterly revenue reports** (QBR decks) and KPI metrics to stakeholders using **Salesforce, Excel and Power BI** dashboards across 500+ enterprise clients, surfacing insights that informed decisions on \$12.6M+ in annual revenue.
- Designed and **executed a Go-to-Market strategy** for the Europe/MEA regions by conducting promotional marketing campaigns and equipping 50+ sales reps with battle cards and training leading to a ~10% increase in conversion rate
- **Awarded twice** for scaling Ethernet On-Demand services and founding InfoByte, a knowledge-sharing program that translated AI/ML concepts for 15+ non-technical teams over 20 sessions

Red Hat

Quality Engineer Intern

Bangalore, India

Jan 2023 - Feb 2023

- Crafted Golang scripts to simulate real-world container workloads, **identified issues and supported quality improvements** for Red Hat's OpenShift platform to enable scalability in Kubernetes environments.

PROJECTS

Google Cloud - External Risk Analysis (Client Project)

Apr 2026 - May 2026

- **Designed an agentic-AI workflow** to consolidate external risk signals across threats, vulnerabilities, compliance, and competitors into prioritized recommendations for Google Cloud's product team.

Cloudflare Feedback Management Dashboard

Dec 2025 - Jan 2026

- Developed a product intelligence dashboard with clear prioritization signals (urgency, sentiment, categories, trends), **translating noisy customer feedback into decision-ready views** that support roadmap planning and faster iteration

L.L.Bean - RFID Technology Assessment (Client Project)

Sep 2025 - Nov 2025

- Evaluated RFID adoption for L.L. Bean, projected to increase inventory accuracy by 17%, sales revenue by 2%, and reduce labor costs by 20% by **analyzing operational gaps** and conducting a **cost-benefit and financial analysis**

Deep learning Models for Pneumonia & Covid Detection via Chest X-Rays

Sep 2023 - Mar 2024

- **Published research paper** and implemented 3 deep learning models for lung disease identification via chest X-Rays; analysed distinct visual patterns presented by bacterial & viral pneumonia and Covid-19 with up to 94% accuracy.

SKILLS, TOOLS & CERTIFICATIONS

- **Skills:** New Product Development, Product Lifecycle Management, User Research, User Acceptance Testing, Prototyping, Go-to-Market, Revenue Analysis, PRD/MRD Writing, KPI Tracking
- **Tools & Analytics:** Python, R, SQL, Microsoft Office Suite, Advanced Excel, Power BI, Figma
- **Certifications:** Certified Scrum Product Owner (CSPO), Google's Data Analytics Professional Certificate (8 courses)
